Hi Diane,

CDM Smith and HDR reviewed the CSTAG file for factual errors and misstatements. We found a small handful of items and the file with our comments is attached.

Reply or call if you have questions.

Thanks,
Aaron

And they have arrived! Please take a look at the CSTAG comments for any errors and let me know by Friday. In addition, as you go through the comments, start getting an idea for a response. Michael wants us to have talking points so that as soon as we release the final version, we are ready to answer any questions that may come up. We have one month to get our responses out.

I was not selected for jury duty for the first half of the week, but have been home with the flu instead. Lucky me. I have to call again tonight to see if I have jury duty tomorrow and Friday. I am free all day today.

Diane

Subject: Passaic River CSTAG comments

Dear Diane,

Attached are the draft CSTAG comments on proposed interim action at the Upper 9 miles of the Lower Passaic River. Please review the document for factual errors or misstatements. The final version will then be sent to the Region for response and it will be posted on the CSTAG website. The draft recommendations are considered pre-decisional.

Thank you for your ongoing assistance with the review. I'm happy to discuss the memo or procedures if it would be helpful.

Thank you,

Karl
